

January 28, 2016

To whomever it may concern:

John Kelenc was contracted with RCD to build a custom, high end home, in the waterfront in West Vancouver. The home was designed with special structural and glazing components to give it an open feel, together with high end details and sophisticated systems.

Throughout the project, John demonstrated sound construction philosophies and worked intimately with the Owners, Architect, Consultants and Trades to implement complex details and designs. His patience and strong communication skills helped ease decision making with the owners and assisted with ensuring trade performance.

We would recommend John's services and should there be any questions please feel free to call me.

Regards,

Joe Moosa | President
